

I object to Sinclair Broadcasting's decision to preempt regular broadcasts to air an anti-Kerry documentary days before the election.

It would be a clear violation of the spirit of fairness.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. Of course, it is the right of any station or group of stations to present their own views, but they also have the obligation to present information that is accurate and balanced. I urge the FCC to stop this violation of the public trust.

Thank you.

Eugene Stockton
